Acting Assistant Manager for  
Environmental Restoration  
DOE, RFO

### ENVIRONMENTAL RESTORATION MANAGEMENT (ERM) SUPPORT TO INTERAGENCY AGREEMENT RENEGOTIATION - SGS-139-94

Effective immediately, Tim O'Rourke from my organization will lead the ERM team supporting the Department of Energy (DOE) renegotiation of the Interagency Agreement. Tim will provide principal technical support to the DOE team, including development of recommendations for modifying the terms, conditions, and decision processes in the agreement; evaluating lessons learned and 'best practices' from other interagency agreements; and coordinating with other ERM personnel for input and review, as appropriate. In this role, Tim will work closely with Pete Swenson, the EG&G coordinator for the renegotiation.

A number of our ongoing activities will provide input to the renegotiation team's efforts, including the development of accelerated cleanup strategies, the implementation of Quality Action Team action plans, the streamlining and focusing of our remediation strategies, the categorization of Individual Hazardous Substance Sites (IHSSs) in the Industrial Area, and the development of an integrated environmental restoration baseline. Tim will be responsible for ensuring these activities are coordinated and consistent with the renegotiation strategies.

We look forward to continuing our support of your staff in the renegotiation efforts. Please contact either Tim at extension 8577 or myself if you have any questions regarding this memo.
